

EDPQS Toolkit 2: Reviewing and improving the quality of prevention work (Self-Assessment & Reflection Toolkit)

Quality Assessment Checklist

Using the Quality Assessment Checklist

Each section of the Checklist consists of four columns:

A summary of the basic Standards at the component level appears at the top of the Checklist.

1. Name of the component: "*You are encouraged to...*" highlights the main issue concerned with the related Standard
2. A list of questions that correspond to the Standard's component, indicating also the corresponding EDPQS standards at the attribute level for easy cross-referencing
3. A scale *Yes – No/Unsure – Not Applicable* to be ticked for each question
4. A smiley to indicate if your prevention work is doing well with regard to each EDPQS component: 😊

It is suggested that you tick the smiley if you answered (nearly) all questions (70-100%) with Yes. So, for example, if there are four questions regarding a particular EDPQS component, the smiley should be ticked if three or four questions were answered with Yes; if there are five questions, the smiley should be ticked if four or five questions were answered with Yes; and so on. If you considered an entire component Not Applicable, then the smiley is not ticked.

The option 'Not applicable' should only be ticked if appropriate. Checklist users should beware of choosing this option too easily or too frequently, acknowledging instead that perhaps the Standard is applicable but not currently feasible.

Some of the questions are identified (in blue colour) as recommended for service managers or regional team coordinators. If you are a practitioner, you may need to skip these questions.

This Checklist should be used in conjunction with the other Toolkit 2 materials available from www.prevention-standards.eu/toolkit-2/ - the Introduction to Toolkit 2 also explains how to use your answers to this Checklist to rate the EDPQS achievement of your prevention work using the Quality Synthesis Profile.

Cross-cutting Considerations

Note: There are many recurring themes that concern the entire project cycle. In the EDPQS, four of these themes have been placed in the middle of the project cycle as they should be reconsidered at each project stage. They have been named “cross-cutting considerations” and comprise components A, B, C, D below:

	<p>Are outcome and process data collected frequently and reviewed systematically? EDPQS 6.3.4</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	<p>Is there a person or team responsible for monitoring the implementation of the intervention? EDPQS 6.3.1-2</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<p>6.4 Adjusting the implementation</p> <p>Here you are encouraged to document any adjustments needed for a successful implementation of the intervention</p>	<p>Is there the possibility to make adjustments during the implementation phase in line with the monitoring findings? EDPQS 6.4.1-3</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	😊
	<p>If the monitoring findings suggest that adjustments are needed, are these adjustments made? EDPQS 6.4.2</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	<p>Are any adjustments documented and well justified? EDPQS 6.4.4</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

7 Final Evaluation

Note: The Standards at this project stage ask you to ensure that a final evaluation takes place, distinguishing between aspects of implementation (process evaluation) and effectiveness (outcome evaluation)

BASIC STANDARDS:		Yes	No / Unsure	NA	
<p>7.1 If conducting an outcome evaluation</p> <p>Here you are encouraged to consider what sort of analyses should be carried out as part of an outcome evaluation (in case of large-scale programmes you should refer to the “expert” Standards in the Manual)</p>	Is there an outcome evaluation comparing the situation before and after the intervention? EDPQS 7.1.7	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	😊
	If yes, is the sample size appropriate for the data analysis, and is the data analysis appropriate? EDPQS 7.1.-2	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	Are all evaluation findings reported and interpreted? EDPQS 7.1.3-7	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	Are the outcomes concerning behavioural changes presented separately from other outcomes? EDPQS 7.1.6	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	Is the possibility of unintended effects (including negative effects) considered? EDPQS 7.1.7	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<p>7.2 If conducting a process evaluation</p> <p>Here you are encouraged to consider different questions that should be addressed as part of a process evaluation</p>	Is there a process evaluation? EDPQS 7.2.1	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	😊
	Does the process evaluation consider different aspects (e.g. number of participants, activities undertaken, implementation fidelity, use of resources, etc.)? EDPQS 7.2.3-5	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	Have the process evaluation findings been documented in writing? EDPQS 7.2.1-5	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	Are the findings from the process evaluation used to explain the findings from the outcome evaluation (if any)? EDPQS 7.2.6	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

8 Dissemination and Improvement

Note: The Standards at this project stage ask you to consider the future of the programme as a major issue

BASIC STANDARDS:		Yes	No / Unsure	NA	
<p>8.1 Determining whether the programme should be sustained</p> <p>Here you are encouraged to consider whether the programme should be continued and on what basis such a decision can be made</p>	<p>Is evidence concerning the programme (i.e. from monitoring and/or evaluations) used to determine whether the programme should continue? EDPQS 8.1.1</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	😊
	<p>If the available evidence suggests that the programme is worthy of continuation, are measures taken to ensure the programme can continue? EDPQS 8.1.1, 8.1.3-4</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	<p>If the available evidence suggests that the programme is not worthy of continuation in its current form, is the programme improved before it is implemented again? EDPQS 8.1.1-4</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	<p>Are the lessons learnt used to inform future activities? EDPQS 8.1.2</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
<p>8.2 Disseminating information about the programme</p> <p>Here you are encouraged to consider the aspects for the programme dissemination, in order to improve the quality of drug prevention work</p>	<p>Is information about the programme disseminated in an appropriate form? EDPQS 8.2.1-2, 8.2.5-8</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	😊
	<p>Is there a person or team responsible for disseminating information about the programme? EDPQS 8.2.3</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	<p>Are the target audiences for dissemination activities specified? EDPQS 8.2.4</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
	<p>Does the level of detail in the dissemination products allow interested parties to assess the quality of the programme, including whether the intervention should be replicated? EDPQS 8.2.7-8</p>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	

EDPQS Toolkit 2 – Quality Assessment Checklist
