## Special Thanks

The idea for an “Adaptation and Dissemination Toolkit” emerged in 2013 through conversation with the following people: Rachele Donini, Anna Zunino, Anders Eriksson, Mats Glans and Ulf Ljungberg. The toolkit draws upon presentations given by these individuals at the EDPQS Phase II project meeting in Milano, Italy, in February 2014. It was these colleagues’ ability and willingness to reflect on, and share with us, the challenges of working with quality standards in a cross-cultural context which inspired the development of this toolkit. Thank you!
